

LEE ENFIELD IS

"SPACE ACE"

LEE ENFIELD IS "SPACE ACE" is the first in The Time Troubleshooter Series and introduces for the first time on the computer screen a hero of the "New Age" – Lee Enfield.

Lee's background is varied and exciting, always there when he's needed, ready to lend a helping hand to a close friend or underdog, whatever the call, whatever the time zone. For Lee defies our understanding of travel, being able to jump the mightiest barrier of all, the barrier of time itself.

So he now finds himself in the 22nd Century in an attempt to rescue his old friend Bill. He knows his fight will be a tough one as he has to battle his way past robot-soldiers, galactic monsters, snipers and abstract apparitions, and even after he smashes through these obstacles he has to destroy the magnetic meteor globe which throws his laser rifle's sights askew, before he can proceed from one level to the next.

Lee takes his chances, he has to. After all he didn't get his trouble-shooter badge for nothing – will you be able to!
