PLAYING INSTRUCTIONS

The Planet Nemesis, a peaceful Earth-like world, is now under an all-out space attack from its old enemies, beings from the sub-space star cluster of Bacterion. The people of Nemesis are in danger of being completely destroyed by the amoeboid Bacterions.

To save them, you have just launched the prototype hyper-space fighter, the Warp Rattler. The entire galaxy awaits your duel to the death with the evil Bacterions.

Your objective is the Bacterion superfortress, Xaerous. To reach this, you must steal the enemy power capsules along your route and boost the Warp Rattler's hyper-powers.

You are the last hope for the gentle people of Nemesis! You will need all your courage and concentration to win. Get ready to blast off!

HOW TO PLAY

Enemy craft will keep attacking your ship. You need to repel these attacks to progress on to the next stage. Besides these regular attacks, in each stage you will be confronted by a major enemy alien creature, if you can destroy this enemy you can pass on to the next stage.

The Warp Rattler is fast, but its armament is not enough to meet the enemy's attacks. You must get regular boosts from the enemy capsules to increase your supply of weapons.
