GAME PLAY

Here's your chance to prove you've got the skill to be a professional race car driver, as you pit yourself against the clock and the world's top Formula 1 race cars.

You have 90 driving seconds in the qualifying run, but must achieve a lap time of 73' or better to qualify for the race. After you qualify the real race begins!

If you hit another car, your car will explode, costing you precious time. No matter how many times you crash, you'll receive another car until your time runs out.

GAME STRATEGY

● **MAKE A FAST START.** In the qualifying lap, be prepared to take off as soon as your race car appears on the screen.

In the real race, be ready to take off as soon as the green starting light flashes.

● **USE THE INSIDE TRACK.** Stay in the inside lane as much as possible. You can travel faster and manoeuvre more easily around the other cars.

● **AVOID SKIDS.** Skidding slows you down and gives other cars a chance to outdistance you. Remember, you earn 50 points for every car you pass.

● **USE THE GEARS.** From a standing start always select LO Gear. To optimise your acceleration, change to HI Gear before you reach 105 mph.

Please complete the order form and return with a cheque or postal order made payable to U.S. Gold Limited, to: U.S. Gold Club, Unit 10, The Parkway Industrial Centre, Heneage Street, Birmingham B7 4LY.
