## THE GAME

Yie Ar Kung-Fu is a test of skill development in the traditional Martial Arts. It features Oolong in his attempt to become a Grandmaster in the ancient skills in honour of his father, a kung-fu master before him.

Your ultimate goal is to become a grand-master but to achieve this you must defeat a variety of opponents each more deadly than the last. They are armed with differing skills and weapons and must be overcome with a combination of 16 different attack moves.

The controls are by means of joystick or keyboard (which is user definable) and the game has a one or two player option.

The fun and excitement of Kung-Fu is about to begin as you face your foe. Your honourable opponents are...

**BUCHU** - A huge kung-fu fighter who can attack by flying through the air.

**STAR** - A beautiful girl warrior who is expert at throwing deadly stars or SHURIKEN.

**NUNCHA** - Master of the NUNCHAKU - beware his reach.

**POLE** - Attacks with the ancient rod or BO.

**CLUB** - ...This fighter is armed with a shield to deflect your blows and a club to strike back.

**FAN** - Another female adversary, this time an exponent of the NINJAFAN

**SWORD** - Sword carrying opponent, a firesome and deadly foe.

**TONFUN** - Skilled in the art of fighting with flailing sticks or TONFA

**BLUES** - The Kung-Fu master himself, has all the skills and moves of Oolong, but faster. If you can win this final battle you truly will become a Grand Master

## THE GAME

It was just twenty years ago that LEE, the Kung Fu master, wiped out the dastardly Chop Suey Gang. But... one member of the gang managed to survive - YEN PEI. YEN PEI now calls himself the Yie Gah Emperor, and with his seven warlords and their retainers, he has extended his evil influence throughout China. LEE's son, LEE YOUNG, has come forth to meet this evil emperor.

To the deadly killing arts of Kung Fu which he learned from his father, he has added his own special techniques, based on OO-LONG TEA POWER and CHOW MEIN NOODLE POWER!!

Help LEE YOUNG to use his Kung Fu against the Yie Gah Emperor!!

## HOW TO PLAY

The game may be played alone or by two people simultaneously. You control the action with either your computer keyboard or with a joystick. First use the keyboard to select either joystick or keyboard control. Then use the keyboard to select one or two players. The game will then begin automatically.

You begin the game with three "LEE'S". If you score 20,000 points then you get an additional "LEE" after 50,000 points you get one more "LEE".

If one of your techniques connects with your opponent, in addition to you scoring points, his energy level, or Ki will diminish. When your opponent's Ki is all gone, you have defeated him!

If an opponents technique is effective on your LEE, LEE loses part of his own energy or Ki. When one LEE loses all his energy, he is OUT.

The game begins with an attack of a squadron of midget fighters. Try to move to the left of your screen while defeating them. Four scenes await you, each with its own evil warlord ready to finish LEE off.

## TWO PLAYERS SIMULTANEOUSLY:

Player one is LEE YOUNG

Player two is LEE's opponent.

Select from:

IRON PIGTAIL    FAN FIGHTER    POISON GAS WARRIOR

## THE GAME

Move Mikie through the school by collecting all the hearts in each section (Classroom, locker room, canteen, gymnasium and finally in the schoolyard).

Each heart collected represents a letter in Mikie's message to his girlfriend at the top of the screen and when the message is complete he can move on to the next area.

There are two types of hearts to collect

(1) Single hearts – To be found on the floor and under stools.

To collect these you must walk over them. (You can bump your classmates off their seats to obtain the hearts with "HIP-ZAP").

(2) Triple hearts – Placed inside lockers and on the top of tables.

To collect these, face the hearts and press "SHOUT" (FIRE) three times. N.B. Flashing hearts give bonus points.

When the message is complete and the bell rings Mikie can move on through the door marked "OUT".

Now you must negotiate the hallway which is full of doors and surprises and find the right entrance marked "IN" to continue. You have five lives to begin, but be careful as you are constantly being hassled by those in charge, the Teachers, Chef and Maniac Janitor who get very annoyed when they can't catch you!

## Status and Scoring

### The Scoreboard

In a two player game the scoreboard is displayed after each game. It shows the points won by each player for each game.

**Indicator 1** shows judge's calls on player one's shots. Shots will be called as OUT or NET.

**Indicator 2** shows player one's present game points.

A score of ten points is awarded each time a

player manages to hit the ball. 500 points are awarded for a successful, point-winning smash. At the end of each level, 1000 points are awarded for each point of the winning margin, as a bonus.

Both player's scores and the highscore are displayed at the top of the screen. If a player's score is large enough he will be given the opportunity to enter his name in the high score table at the end of his game.

## Playing

Each game is played to 11 points. The winner is the first to reach 11, however he must win by at least two clear points unless the score reaches 15, in which case the game will terminate. The service changes after every five points, however if a tie score of 10-10 is reached the service changes after every point from then on.

If a two player game is being played then a match of three games is played. The first player to win two games wins the match.

In a one player game if the player wins then a new game is started on the next highest difficulty level.

## Hints and Tips

### When To Use Each Shot Type

**Smash** - This is a superfast shot used to return 'floaters'. Floaters will make a distinctive sound.

**Drive** - This is a fast shot normally used to return the ball.

**Cut** - This is a slow shot which can be used to interfere with your opponent's timing.

**Forehand or Backhand** - Switching back and forth from backhand to forehand is effective when your opponent tries to catch you on your undefended side or when you want to force your opponent to move right or left.

The direction in which the ball is returned depends on the timing with which you hit it back.

### Ping Pong Terminology

**In** - The serve or return is good.

**Out** - The serve or return is bad.

**Net** - A served ball hits the net and is OUT.

**Deuce** - A tie score at 10 and above.

**Love All** - Score is 0-0 at the start of the match.

# JACKAL

## JACKAL

So, you've decided to have a shot?

You're mad! (But then some of the greatest figures in history have been mad). A recent surprise attack from the enemy caught us unawares and they got away with rather too many of our troops. We know those men are being held in huts inside the enemy camps. And we know it's virtually impossible to get them out.

So, we're sending some of our toughest lads — Bob, Grey, Quint, and Decker — behind enemy lines to see what they can do. The plan — codename JACKAL — is to round up the men and drop them off at various locations. They will then be picked up by helicopter.

They won't get any help, unless they chance upon extra weapons in the prison huts, but they'll certainly get plenty of hindrance.

If they manage all that, they're to go on and launch a solo attack on enemy headquarters.

No-one expects them to survive. What do you think? Got any smart ideas? If you have, don't waste any more time. Got to it!

## CONTROLS

The game can be played with Kempston, Protek and Sinclair joysticks, or redefinable keyboard.

Keyboard Controls: Left=Z, Right=X, Up=+, Down=?, Fire=Space Bar  
Joystick Controls: Left, Right, Up, Down, Fire. Press P to Pause, Q to Quit.

## WEAPONS SELECTION

To Fire Machine Gun, press FIRE key repeatedly. To Fire Grenade, Short Range Missile, Long Range Missile and Starburst Missile, hold down FIRE key. The Missiles are automatically selected when "POW(ER) UP" sign appears on screen after certain huts have been attacked and single occupant rescued.

At each step of your way on your road to freedom you will encounter more and more of the Triads, and at each stage you will discover one that is particularly skillful! Look out for flying kicks, breathing flame, and punches that come clear out of nowhere!

## CONTROLS

Your control of Lee allows you to kick, jump over opponents, jump up and down levels, and to use various magic skills you can acquire during the game. Killing some of your opponents will result in a ball of energy being shot across the playing area—successfully catch this ball and you will temporarily possess one of several magic powers. Using the KICK button whilst you possess the power will fire the magic at your opponents.

### KEYBOARD

On each version you will be given the option to define which keys you wish to press to be able to control Lee's movements and fighting.

## THE GAME

It was just twenty years ago that LEE, the Kung Fu master, wiped out the dastardly Chop Suey Gang. But... one member of the gang managed to survive - YEN PEI. YEN PEI now calls himself the Yie Gah Emperor, and with his seven warlords and their retainers, he has extended his evil influence throughout China. LEE's son, LEE YOUNG, has come forth to meet this evil emperor.

To the deadly killing arts of Kung Fu which he learned from his father, he has added his own special techniques, based on OO-LONG TEA POWER and CHOW MEIN NOODLE POWER!!

Help LEE YOUNG to use his Kung Fu against the Yie Gah Emperor!!

## HOW TO PLAY

The game may be played alone or by two people simultaneously.

You control the action with either your computer keyboard or with a joystick.

First use the keyboard to select either joystick or keyboard control. Then use the keyboard to select one or two players. The game will then begin automatically.

You begin the game with three "LEE'S". If you score 20,000 points then you get an additional "LEE" after 50,000 points you get one more "LEE".

If one of your techniques connects with your opponent, in addition to you scoring points, his energy level, or Ki will diminish. When your opponent's Ki is all gone, you have defeated him!

If an opponents technique is effective on your LEE, LEE loses part of his own energy or Ki.

When one LEE loses all his energy, he is OUT.

The game begins with an attack of a squadron of midget fighters. Try to move to the left of your screen while defeating them. Four scenes await you, each with its own evil warlord ready to finish LEE off.

## TWO PLAYERS SIMULTANEOUSLY:

Player one is LEE YOUNG

Player two is LEE's opponent

Select from: IRON PIGTAIL FAN FIGHTER POISON GAS WARRIOR

The game will begin automatically after selecting your opponent.

The best two out of three matches wins; the first player to win two matches is the champ

**Indicator 5** shows player two's court.

**Indicator 6** shows player two's present game points.

**Entering your name in the high score table**

Select the desired letter by moving the appropriate joystick left or right, and press fire to make your selection.

A score of ten points is awarded each time a player manages to hit the ball. Both player's scores and the

highscore are displayed at the top of the screen. If a player's score is large enough he will be given the opportunity to enter his name in the high score table at the end of his game.

## HINTS & TIPS

**When To Use Each Shot Type**

**Smash** - This is a superfast shot used to return 'floaters'. Floaters will make a distinctive sound.

**Drive** - This is a fast shot normally used to return the ball.

**Cut** - This is a slow shot which can be used to interfere with your opponent's timing.

**Forehand or Backhand** - Switching back and forth from backhand to forehand is effective when your opponent tries to catch you on your undefended side or when you want to force your opponent to move right or left.

The direction in which the ball is returned depends on the timing with which you hit it back.

## Ping Pong Terminology

**In** - The serve or return is good.

**Out** - The serve or return is bad.

**Net** - A served ball hits the net and is OUT.

**Duce** - A tie score at 11 and above.

**Love All** - Score is 0-0 at the start of the match.

**Change Courts** - Players change sides.

**Game Set** - Match is over.

# JACKAL

So, you've decided to have a shot?

You're mad! (But then some of the greatest figures in history have been mad). A recent surprise attack from the enemy caught us unawares and they got away with rather too many of our troops. We know those men are being held in huts inside the enemy camps. And we know it's virtually impossible to get them out.

So, we're sending some of our toughest lads — Bob, Grey, Quint, and Decker — behind enemy lines to see what they can do. The plan — codename JACKAL — is to round up the men and drop them off at various locations. They will then be picked up by helicopter.

They won't get any help, unless they chance upon extra weapons in the prison huts, but they'll certainly get plenty of hindrance.

If they manage all that, they're to go on and launch a solo attack on enemy headquarters.

No-one expects them to survive. What do you think? Got any smart ideas?

If you have, don't waste any more time. Got to it!

## CONTROLS

The game can be played with Kempston, Protek and Sinclair joysticks, or redefinable keyboard.

Keyboard controls: Left=Z, Right=X, Up=K, Down=M, Fire=L

Joystick Controls: Left, Right, Up, Down, Fire. Press P to Pause, 1 to Quit.

## THE GAME

It was just twenty years ago that Lee, the Kung Fu master, wiped out the dastardly Chop Suey Gang. But... one member of the gang managed to survive - YEN PEI.

YEN PEI now calls himself the Yie Gah Emperor, and with his seven warlords and their retainers, he has extended his evil influence throughout China. LEE's son, LEE YOUNG, has come forth to meet this evil emperor.

To the deadly killing arts of Kung Fu which he learned from his father, he has added his own special techniques, based on OO-LONG TEA POWER and CHOW MEIN NOODLE POWER!!

Help LEE YOUNG to use his Kung Fu against the Yie Gah Emperor!!

The Opponents you will have to face in order to rid China of this terrible gang, are:

- 1 YEN PEI (IRON PIGTAILS)
- 2 LANG FANG (FANS)
- 3 PO CHIN (FIRE BREATHER)
- 4 WEN HU (FLYING MASK)
- 5 WEI CHIN (BOOMERANGS)
- 6 MEI LING (DAGGERS)
- 7 HAN CHEN (BOMBS)
- 8 LI JEN (LIGHTNING BOLTS)

This game may be played alone or by two players simultaneously.

You control the action with joystick(s), player 1 port 1, player 2 port 2.

First use the joystick to select the type of game you wish to play, and press the fire button.

You begin the game with three "LEE'S". If you score 20,000 points you get an additional "LEE" to fight with. Score another 50,000 points and you get one more.

If one of your attacking moves connects with your opponent, in addition to your scoring points, his energy level, or KO, will diminish. When your opponent's KO is all gone, you have defeated him.

If an opponent's technique is effective on LEE he loses part of his own energy or KO. When one LEE loses all his energy he is defeated.

The game begins with an attack of a squadron of midget fighters... try to move the left of your screen while defeating them. Four scenes await you, each with its own evil warlord ready to finish LEE off.

Two players simultaneously:

- a) Player 1 is LEE YOUNG.
- b) Player 2 is LEE's opponent. Select from among the Iron Pigtail, the Fan Fighter, or the Fire Breather!
- c) Press Fire to start game after selecting LEE's opponent.
- d) The best two out of three matches wins; the first player to win two matches is the champ.

## IMPROVE YOUR FIGHTING TECHNIQUES

**1 OO-LONG TEA POWER:** If you knock out a complete formation of three midget attackers, you get one tea leaf. If you can get five tea leaves, this is enough for a cup of Oo-Long tea. Once you have enough for a cup of tea press the COMMODORE key while the game is in progress and you will get a new supply of energy. You can have up to three cups of Oo-Long tea in any one game.

**2 CHOW MEIN NOODLE POWER:** Somewhere in the background of each scene is a bowl of Chow Mein. If you can find the Chow Mein noodles, this will make you invincible for a few valuable seconds.

## SOUND or EFFECTS

During the game you will be able to hear either the sound effects or the music. Use the 'S' key on the keyboard to toggle between Music & Sound effects.

## HINTS AND TIPS

# MIKIE

## THE GAME

Move Mikie through the school by collecting all the hearts in each section (Classroom, locker room, canteen, gymnasium and finally in the schoolyard).

Each heart collected represents a letter in Mikie's message to his girlfriend at the top of the screen and when the message is complete he can move on to the next area.

There are two types of hearts to collect

- (1) Single hearts - To be found on the floor and under stools. To collect these you must walk over them. (You can bump your classmates off their seats to obtain the hearts with "HIP-ZAP").
- (2) Triple hearts - Placed inside lockers and on the top of tables. To collect these, face the hearts and press "SHOUT" (FIRE) three times. N.B. Flashing hearts give bonus points.

When the message is complete and the bell rings Mikie can move on through the door marked "OUT".

Now you must negotiate the hallway which is full of doors and surprises and find the right entrance marked "IN" to continue. You have five lives to begin, but be careful as you are constantly being hassled by those in charge, the Teachers, Chef and Maniac Janitor who get very annoyed when they can't catch you!

You can stun your pursuer by taking Chickens or Basket Balls and throwing them (in appropriate screens).

You may become "Stunned" by kissing the dancing girls or from the Traps which lie behind some of the doors in the hallway.

Watch out for the Teacher, if he gets really mad he might throw his false teeth at you!

On the 5th screen, in the schoolyard, you finally catch up with your girlfriend and deliver the message. O.K.

You can pause for breath in the classroom by sitting on a vacant stool . . . but not too long!

# PING PONG

## The Game

Ping Pong is a realistic simulation of table tennis for one player. The screen displays a three dimensional view from above a ping pong table with the players depicted as bats. The game can be played at five different skill levels against the computer.

## Controls

The game is controlled by joystick in Port 1 or Port 2.

### Joystick

**Drive** Press fire button.

## Serving

Toss up the ball for the serve by using the serve control. Move the joystick left or right to select either forehand or backhand respectively. Use cut or drive to hit the ball.

## Playing

Each game is played to 11 points. The winner is the

first to reach 11, however he must win by at least two clear points unless the score reaches 15, in which case the game will terminate.

The service changes after every five points scored, however if a tie score of 10-10 is reached the service changes after every point from then on.

In a game is the player wins then a new game is started on the next highest difficulty level.

## Status and Scoring

### Entering your name on the High Score Table

Select the desired letter by moving left or right and press the fire to make your selection. A score of ten points is awarded each time a player manages to hit the ball. 500 points are awarded for a successful, point-winning smash. At the end of each level, 1000 points are awarded for each point of the winning margin, as a bonus. If a player's score is large enough he will be given the opportunity to enter his name in the high score table at the end of his game.

## Hints and Tips

### When To Use Each Shot Type

**Smash** - This is a superfast shot used to return 'floaters'. Floaters will make a distinctive sound.

**Drive** - This is a fast shot normally used to return the ball.

**Cut** - This is a slow shot which can be used to interfere with your opponent's timing.

**Forehand or Backhand** - Switching back and forth from backhand to forehand is effective when your opponent tries to catch you on your undefended side or when you want to force your opponent to move right or left.

The direction in which the ball is returned depends on the timing with which you hit it back.

### Ping Pong Terminology

**In** - The serve or return is good.

**Out** - The serve or return is bad.

**Net** - A served ball hits the net and is OUT.

**Duce** - A tie score at 10 and above.

**Love All** - Score is 0-0 at the start of the match.

## THE GAME

All aboard? Then away you go...

Folks are waiting out there in the last posts of civilisation for their hard-earned pay. But they'll only get it if the train gets through and it's under attack from the meanest, toughest bunch of thugs in the wild Wild West.

You've just got to do something - get to the front of the train, clearing the carriages of bandits and outlaws as you go.

The trouble is they're everywhere, swarming over the compartments like the rats they are. So you've certainly got your work cut out.

You've got to get rid of them *and* pick up the sacks of gold while the express steams steadily onwards, through the prairies, over the mountains and across the desert. You'll need to keep all your wits about you in order to advance from one level to the next.

And, to make life even harder, once you've chosen your weapon, you've got to stick to it. So choose wisely at the outset.

The only thing that might help is if you can get hold of the tinder box and so increase your fire power.

Apart from that you've got nothing on your side. Especially not time.

## PLAYING AND LOADING INSTRUCTIONS

At the beginning of the game select Joystick or Keyboard option. Then select key options for extra weapon and squat. Select 1 or 2 Players by Pressing Appropriate Key.

The player is presented with a selection of weapons, (Punch, Gun, Whip). Make your choice using the appropriate key. The weapon you choose is used while the game is in progress - you can't swop weapons during the game. Capturing the tinder box will increase your fire power.

At the end of each level you must repel all the attacking outlaws to advance to the next level.

# SHAOLIN'S ROAD

As our Hero Lee you have finally mastered the secret martial art, "Chin's Shao-Lin." You find yourself trapped in the temple by hordes of Triads. Using your kicking skills and magic powers you must fight off the Triads and get out of the temple and head for the road to freedom. At each step of your way on your road to freedom you will encounter more and more of the Triads, and at each stage you will discover one that is particularly skillful! Look out for flying kicks, breathing flame, and punches that come clear out of nowhere!

## CONTROLS

Your control of Lee allows you to kick, jump over opponents, jump up and down levels, and to use various magic skills you can acquire during the game. Killing some of your opponents will result in a ball of energy being shot across the playing area — successfully catch this ball and you will temporarily possess one of several magic powers. Using the KICK button whilst you possess the power will fire the magic at your opponents.

### KEYBOARD

On each version you will be given the option to define which keys you wish to press to be able to control Lee's movements and fighting.

Votre but final est de passer grand-maître mais pour atteindre cet objectif, vous devrez battre divers adversaires, tous plus implacables les uns que les autres. Munis d'armes diverses et utilisant des techniques différentes, ils doivent succomber à une combinaison de 10 déplacements d'attaque différents.

Le jeu est commandé par joystick et peut se jouer à un ou deux joueurs.

C'est maintenant que ça va commencer à barder alors que vous faites front à votre ennemi. Vos honorables adversaires sont BUCHU - Un énorme combattant kung-tu qui peut attaquer en volant.

STAR - Une belle femme guerrière, versée dans l'art de lancer des étoiles mortelles ou SHURIKEN.

SWORD - Adversaire armé d'une épée, un ennemi redoutable et mortel.

TONFUN - Expert dans l'art de se battre en faisant voltiger des bâtons ou TONFUN.

## LE JEU

Il y a tout juste vingt ans que LEE, le maître Kung Fu a réussi à se débarrasser de l'ignoble gang des Chap Suey. Mais... un des membres du gang a survécu... YEN PEI!

YEN PEI porte maintenant le nom d'empereur Yie Gah et avec ses sept seigneurs de la guerre et leurs serviteurs, il a étendu son influence néfaste sur toute la Chine. LEE YOUNG, le fils de LEE va l'opposer à cet empereur maléfique!

S'ajoutant à l'art martial du Kung Fu que lui avait enseigné son père, il possède également ses propres techniques d'un type spécial, basées sur le OO-LONG TEA POWER et sur le CHOW MEIN NOODLE POWER!

A vous d'aider LEE YOUNG à utiliser son Kung Fu contre l'empereur Yie Gah!!

Afin de débarrasser la Chine de ce terrible gang, voici les ennemis auxquels vous aurez à faire face :

- 1 YEN PEI (IRON DIGITALS)
- 2 LAN FANG (ÉVENTAIL)
- 3 PO CHIN (AVALÈUR DE FEU)
- 4 WEN HU (MASQUE VOLANT)
- 5 WEI CHIN (BOOMERANGS)
- 6 MEI LING (POIGNARDS)
- 7 HAN CHEN (BOMBES)
- 8 LI JEN (CARREAU FOUDROYANT)

Ce jeu peut se jouer à un ou deux joueurs.

Vous contrôlez l'action à l'aide de leviers (1) Joueur 1, port 1. Joueur 2, port 2

Utilisez d'abord le levier pour sélectionner le type de jeu que vous souhaitez jouer, puis appuyez sur le bouton FIRE (feu).

Vous commencez le jeu avec trois LEE. Si vous obtenez 20 000 points, il vous est accordé un autre LEE. Avec 50 000 de plus, vous en obtenez encore un autre. Si un de vos mouvements d'attaque vous réunit à votre opposant, en plus des points que vous aurez obtenus, vous levez également diminuer son niveau d'énergie ou KO. Vous avez vaincu votre opposant quand son KO a entièrement disparu.

Si la technique d'un des opposants est effacée, LEE perd une partie de son énergie ou KO. Quand un LEE a perdu toute son énergie, il est vaincu.

Le jeu commence par l'attaque d'un escadron de combattants nains.

Tout en les combattant, essayez de vous déplacer vers la gauche de votre écran. Quatre scènes vous attendent, chacune contient un seigneur de la guerre maléfique prêt à se débarrasser de LEE.

Jeu avec deux joueurs

# MIKIE

Le code du programme, sa représentation graphique et sa conception artistique sont la propriété d'Imagine Software (1984) Limited et ils ne peuvent être reproduits, stockés, loués ou diffusés sous toute forme que ce soit sans la permission écrite d'Imagine Software (1984) Limited. Mikie se joue sur l'ordinateur Commodore 64.

Aidez Mikie à faire passer un message à sa petite amie. Participez à ses farces à l'école et soyez plus malin que le Professeur, le Concierge Fou et le Chef. Jeu informatique amusant et passionnant.

## LE JEU

Déplacez Mikie dans l'école en ramassant tous les coeurs dans chaque partie de l'école (salle de classe, salle des casiers à rangement, cantine, salle de gym et finalement dans la cour de récréation).

Chaque coeur ramassé représente une lettre du message de Mikie à sa petite amie, présenté à la partie supérieure de l'écran, et lorsque le message est complet, il peut passer à la zone suivante.

Il y a deux types de coeurs à ramasser:

- (1) Coeurs uniques – se trouvent sur le plancher et sous les tabourets. Pour les prendre, vous devez marcher dessus (vous pouvez faire tomber vos camarades de leurs tabourets pour obtenir les coeurs en utilisant la commande Feu plus Direction).
- (2) Coeurs triples – placés à l'intérieur des casiers et sur les tables. Pour les prendre, mettez-vous en face des coeurs et appuyez trois fois sur le bouton "SHOUT" (FIRE). Remarque: les coeurs clignotants donnent des points supplémentaires.

Lorsque le message est complet et que la sonnerie retentit, Mikie peut passer par la porte marquée "OUT" (SORTIE). Vous devez maintenant traverser le couloir qui est plein de portes et de surprises et trouver la bonne entrée, marquée "IN" (ENTREE), qui vous permettra de continuer. Vous avez cinq vies pour commencer, mais faites attention, car vous êtes constamment harcelé par les responsables, c'est-à-dire les Professeurs, Chef et le Concierge Fou, qui se mettent très en colère lorsqu'ils ne peuvent pas vous attraper!

## COMMANDES

Le jeu se joue avec le manche à balai seulement.

Bouton Fire (Feu) = SHOUT

Fire (Feu) plus Direction = POUSSER VOS CAMARADES.

Pour POUSSER un camarade de son tabouret, tenez-vous à droite ou à gauche devant le tabouret et appuyez en même temps sur la commande de direction et de feu.

Les baisers sont automatiques!

## SITUATION ET POINTS

L'écran présente constamment vos points, le nombre de vies qu'il vous reste, l'avancement du message et la salle dans laquelle vous vous trouvez. Le total des points est donné à la fin du jeu.

Coeurs: 200 points                      Coeurs clignotants: 1000 points

Pousser: 600 points                      Baiser: 100 points

Jeter un poulet/                      Porte-piège: 100 points

une balle: 200 points

2000 points supplémentaires pour chaque salle finie.

Nombreux points supplémentaires (pouvez-vous les trouver?)

## QUELQUES CONSEILS

Vous pouvez étourdir la personne qui vous poursuit en prenant un poulet ou une balle et en les lançant (dans les écrans appropriés). Vous pouvez être mis K.O. en embrassant les danseuses ou en tombant dans les pièges situés derrière certaines portes du couloir.

Attention au Professeur, s'il se met vraiment en colère, il peut jeter ses fausses dents dans votre direction!

Sur le cinquième écran, dans la cour de l'école, vous retrouvez enfin votre petite amie et vous lui donnez le message. Tout s'est arrangé.

Vous pouvez souffler un peu dans la salle de classe, assis sur un tabouret libre... mais pas trop longtemps!

**BONNE CHANCE!**

## LE JEU

Tout le monde à bord? Alors en route...

Les hommes attendent là-bas aux confins de la civilisation l'arrivée de leur paie durement gagnée. Mais ils ne la toucheront que si le train peut passer et justement, il est attaqué par la bande de durs à cuir les plus cruels et les plus forts du Far Ouest sauvage .

Vous devez agir, vite - passer à l'avant du train, débarrasser les wagons des bandits et des hors-la-loi à mesure que vous avancez.

L'ennui, c'est qu'ils sont partout, grouillant dans les compartiments comme de vrais rats. Alors, vous savez ce qu'il vous reste à faire.

Il faut vous débarrasser d'eux et ramasser les sacs d'or pendant que l'express traverse les prairies, escalade les montagnes et franchit le désert à pleine vapeur. Il faudra garder la tête sur les épaules si vous voulez avancer d'un niveau à l'autre.

Et, pour vous rendre la vie encore plus difficile, une fois que vous aurez choisi votre arme, vous ne pourrez pas en changer. Alors, choisissez bien dès le départ.

La seule chose qui pourrait vous aider, c'est la caisse d'explosifs, si vous pouvez vous en emparer. Elle augmentera votre puissance de tir.

A part ça, il n'y a rien pour vous aider. Surtout pas le temps.

## LE JEU

Le Ping Pong est une simulation, pleine de réalisme, du jeu de ping pong.

L'écran affiche une vue plongeante tridimensionnelle d'une table de ping pong, les joueurs étant représentés par des raquettes.

Le jeu peut se jouer à cinq niveaux différents d'adresse, contre l'ordinateur.

## COMMANDES

Le jeu est commandé par manche à balai dans le port 1 ou dans le port 2.

### MANCHE A BALAI

Drive - appuyer sur le bouton Feu.

## SERVICE

Lancer la balle en l'air pour le service en utilisant la commande de service.

Bouger le manche à balai à gauche ou à droite pour sélectionner soit coup droit soit revers respectivement.

Utiliser soit couper soit drive pour frapper la balle.

## SITUATION ET MARQUE DES POINTS

Entrée de votre nom dans le tableau de score élevé.

Sélectionner la lettre désirée en bougeant à gauche ou à droite, et

appuyer sur feu pour effectuer votre sélection. Un score de dix points est accordé chaque fois qu'un joueur parvient à frapper la balle. 500 points sont accordés pour un smash réussi, récolteur de points. A la fin de chaque niveau, 1000 points sont accordés pour chaque point de la marge gagnante, en prime. Si le score d'un joueur est assez élevé, il aura la possibilité d'entrer son nom dans le tableau de score élevé à la fin de son jeu.

## JEU

Chaque jeu se joue jusqu'à 11 points. Le gagnant est celui qui arrive le premier à 11 points. Il doit, toutefois, gagner par deux points de plus au moins, à moins que le score atteigne 15, dans quel cas le jeu se termine.

Le service change tous les cinq points. Toutefois, si on obtient un score à égalité de 10-10, le service change dès lors après chaque point.

Dans un jeu, si le joueur gagne, un nouveau jeu commence alors au niveau de difficulté suivant.

## CONSEILS ET TUYAUX

Quand utiliser chaque type de coup

**Smash (Smash)** - Il s'agit d'un coup extra-rapide utilisé pour renvoyer les "balles flottantes". Les balles flottantes auront un bruit très distinctif.

**Drive (Drive)** - Il s'agit d'un coup rapide, utilisé normalement pour relancer la balle.

**Cut (Couper)** - Il s'agit d'un coup lent qui peut être utilisé pour gêner le rythme de votre adversaire.

**Forehand or Backhand (Coup droit ou Revers)** - Changer du revers au coup droit et vice versa est efficace quand votre adversaire essaie de vous attraper du côté non défendu ou quand vous voulez forcer votre adversaire à aller à droite ou à gauche.

La direction du retour de la balle dépend du rythme auquel vous rendez le coup.

### Terminologie du ping pong

**In (bon)** - Le service ou la balle relancée est bon.

**Out (nul)** - Le service ou la balle relancée n'est pas bon.

**Net (filet)** - Une balle servie frappe le filet et est nulle.

**Duce (égalité)** - Un score à points égaux de 10 et plus.

**Love All (zéro partout)** - Le score est de 0-0 au début de la partie.

# NEMESIS

La planète Nemesis, un monde paisible à l'image de la Terre, est tombée sous les feux de l'attaque spatiale de ses vieux ennemis, les Bactériens, des créatures amiboïdes provenant d'un groupe d'étoiles d'un espace secondaire. Le peuple de Nemesis est en grand danger, puisqu'il risque d'être anéanti par les Bactériens.

Le Warp Rattler, un prototype de combat hyper-spatial pourra seul sauver Gradius en se lançant dans un combat à mort avec les belliqueux Bactériens. Son objectif Xearous, la super-forteresse des Bactériens. Pour l'atteindre, il devra dérober à l'ennemi des capsules d'énergie de long de son parcours, afin de renforcer ses hyper-pouvoirs. Le Warp Rattler est le dernier espoir du peuple paisible de Nemesis! Il lui faudra courage et concentration pour vaincre. Qu'il se prépare au dur combat qui l'attend!

## COMMENT JOUER

Un véhicule spatial ennemi attaquera continuellement votre vaisseau. Vous devrez repousser ces attaques pour pouvoir passer au stade suivant. En plus de ces attaques régulières, vous devrez faire face, à chaque stade, à une créature extraterrestre ennemie et si vous parvenez à détruire cet ennemi, vous pourrez passer au stade suivant.

## IL GIOCO

Era poco più di vent'anni fa che LEE, il Maestro del Kung Fu, ha eliminato la Banda del Chop Sueti...ma uno dei membri della banda è sopravvissuto - YEN PEI.

YEN PEI adesso si fa chiamare l'Imperatore Yen Gah, e con i suoi sette signori della guerra ed i loro servi ha esteso la sua influenza malvagia in tutta la Cina. Il figlio di LEE, LEE YOUNG, è arrivato a confrontarsi con il cattivo imperatore.

All'arte mortale del Kung Fu, che ha imparato dal padre, Lee aggiunge anche le sue tecniche speciali: basate sull'OO-LONG TEA POWER e CHOW MEIN NOODLE POWER!!

Aiutate LEE YOUNG ad usare il suo Kung Fu contro l'Imperatore Yen Gah! I nemici che vi troverete ad affrontare sono:

- |                              |                            |

Fate attenzione — potrete diventare un "Cerca Mine" umano. Evitate i missili ed i colpi che vi vengono sparati addosso. Raccogliete tutte le vostre armi uccidendo il Comandante.

# MIKIE

Il suo programma, il codice, la sua rappresentazione grafica e la parte artistica sono il copyright di Imagine Software (1984) Limited e non possono essere riprodotti, tenuti in memoria, dati in affitto o trasmessi in qualsiasi forma senza il permesso scritto di Imagine Software (1984) Limited. Tutti i diritti riservati. Il programma funziona con un computer Commodore 64. Aiutate Mikie a far pervenire il messaggio alla sua Ragazza. Saltate con lui a scuola e prendetevi gioco dell'Insegnante, del Custode Pazzo e del Cuoco. Questo gioco è pieno di avvenimenti divertenti e pazzi!

## IL GIOCO

Fate muovere Mikie nella scuola raccogliendo tutti i cuori in ogni sezione (Classe, guardaroba, refettorio, palestra, e nel cortile). Ogni cuore raccolto rappresenta una lettera del messaggio di Mikie alla sua ragazza che appare in alto sullo schermo, quando il messaggio è completo può passare alla zona seguente.

I tipi di cuori da raccogliere sono due:

- (1) Cuori singoli — si trovano sul pavimento e sotto gli sgabelli. Per raccoglieteli dovrete camminarci sopra. (Potete anche far cadere i vostri compagni dagli sgabelli per poter raccogliere i cuori, usando HP-ZAP).
- (2) Cuori tripli — Si trovano nei cassettini chiusi e sopra ai banchi. Per raccoglieteli dovrete mettervi davanti e schiacciare 'SHOUT' (FIRE) tre volte. N.B. I cuori che lampeggiano danno punti extra.

Una volta che avete completato il messaggio ed il campanello suona, Mikie potrà passare attraverso la porta marcata con "OUT". Adesso dovrete passare attraverso il corridoio che è pieno di porte e di sorprese e trovare l'entrata giusta, marcata con "IN" per continuare. Vi vengono date cinque vite all'inizio della partita, ma fate attenzione perchè l'Insegnante, il Custode ed il Cuoco cercheranno di acciuffarvi.

## COMANDI

Il gioco è controllato solo tramite joystick.

Tasto Fire = SHOUT

Tasto Fire più Direzione = CONTROLLO ZAP

e cioè per poter eseguire HIP-ZAP dovrete stare a sinistra o a destra ma rivolto verso lo sgabello e continuate a schiacciare la direzione scelta finchè il vostro compagno cade dallo sgabello.

## POSIZIONE E PUNTEGGIO

Sullo schermo appaiono il punteggio corrente, le vite rimaste, la posizione e la stanza in cui vi trovate. Il punteggio finale appare alla fine del gioco.

Cuori	200 punti	Cuori con punti extra	1000 punti
Hip-Zap	600 punti	Bacio	100 punti
Tiro pollo/palla	200 punti	Trappola	100 punti

2000 punti extra per ogni stanza completata  
Tantissimi punti extra. (Riuscirete ad ottenerli?)

## SUGGERIMENTI

Potrete confondere i vostri nemici tirando dei Polli o delle Palle (nei videata corretti).

Se baciate le ballerine o se finite nelle Trappole che si trovano dietro alcune delle porte nel corridoio rimarrete confuso.

Fate attenzione all'Insegnante. Se veramente si arrabbia vi tira addosso la dentiera!

Sul quinto videata, nel cortile, troverete finalmente la vostra ragazza e potrete consegnarle il messaggio. O.K.

Vi potete fermare per riprendere fiato nella classe, sedendovi su di uno sgabello vuoto... ma non a lungo!

# PING PONG

Il suo programma, il codice, la sua rappresentazione grafica e la parte artistica sono il copyright di Imagine Software (1984) Limited e non possono essere riprodotti, tenuti in memoria, dati in affitto o trasmessi in qualsiasi forma senza il permesso scritto di Imagine Software (1984) Limited. Tutti i diritti riservati. Ping Pong funziona con un computer Commodore 64.

## IL GIOCO

Ping Pong è una simulazione realistica di una partita di ping pong per un giocatore solo.

Sul video appare un'immagine tridimensionale da sopra ad un tavolo di ping pong con i giocatori rappresentati da racchette.

Si può giocare a cinque livelli diversi di abilità contro il computer.

## COMANDI.

Il gioco viene controllato tramite il joystick nel Portello 1 o nel Portello 2.

Joystick

Per un effetto di 'drive' schiacciare il tasto Fire.

## IL SERVIZIO

Buttate la palla per servire usando il comando del servizio.

Muovete il joystick verso sinistra o verso destra per scegliere il rovescio od il diritto. Usare la tagliata oppure drive per dare un effetto alla palla.

## COME GIOCARE

Si arriva ad 11 punti per ogni partita. Il vincitore è il primo che arriva ad 11 punti. Tuttavia dovrà avere almeno 2 punti di vantaggio, altrimenti si arriverà a 15, e la partita terminerà.

Il servizio cambia ogni cinque punti, ma se si verifica un punteggio di 10-10, il servizio cambia ogni punto.

Quando il giocatore vince contro il computer, si ricomincia ad un livello più difficile.

## POSIZIONE E PUNTEGGIO

Come inserire il vostro nome nella tabella dei punteggi più alti. Scegliere la lettera desiderata spostandosi verso destra o sinistra e schiacciare il tasto fire.

Ogni volta che un giocatore colpisce la palla ottiene dieci punti. 500 quando si fa una schiacciata che consente di vincere un punto.

Alla fine di ogni livello, vengono assegnati 1000 punti per ogni punto di margine di punteggio.

Se il punteggio del giocatore è sufficientemente alto, gli verrà data la possibilità di inserire il proprio nome nella tabella dei punteggi più alti alla fine del gioco.

## SUGGERIMENTI

Come e quando usare i diversi tipi

**Schiacciata** — Questo è un tiro superveloce che viene usato per rilanciare le palle fluttuanti. Le palle fluttuanti fanno un rumore particolare.

**Effetto** — Questo è un tiro veloce usato per rilanciare la palla.

**Tagliata** — Questo è un tiro lento che si può usare per interferire con il gioco dell'avversario.

**Rovescio o Diritto** — Passando da rovescio a diritto e viceversa, è un buon gioco quando il vostro avversario cerca di colpirla dal lato in cui siete indifeso, o quando volete forzarlo a spostarsi a sinistra o a destra.

La direzione in cui la palla viene ritornata dipende dal momento in cui viene rilanciata.

**Terminologia di Ping Pong**

**In (Dentro)** — Il servizio od il ritorno sono buoni

**Out (Fuori)** — Il servizio od il ritorno non sono buoni

**Net (Rete)** — Una palla servita è finita nella rete ed è fuori

**Duce (Pari)** — Un punteggio di 10 pari o più.

**Love All (Zero pari)** — Il punteggio è di 0-0 all'inizio della partita.

## IL CAVALLO DI FERRO

### IL GIOCO

Tutti in groppa? Allora si va...

La gente sta aspettando là, ai confini della civilizzazione, per la paga. Ma la riceveranno soltanto se il treno riesce a passare e al momento è attaccato dalla banda più feroce dell'Ovest.

Voi dovete ben fare qualcosa — andare sul davanti del treno, eliminando dai vagoni i banditi e i predoni durante il passaggio.

Il problema è che sono dappertutto, accalcolandosi in tutti gli scompartimenti proprio come i topi. Quindi c'è parecchio da fare.

Dovete non solo liberarvi da questa folla ma anche prendere i sacchi d'oro mentre il treno continua a progredire attraverso le praterie, sulle montagne in mezzo al deserto. Dovete fare molta attenzione in modo da poter avanzare da un livello all'altro.

E, per rendere la vita anche più difficile, quando avete scelto l'arma, dovete tenerla sempre. Quindi scegliete bene dal principio.

L'unica cosa che può aiutarvi è se potete prendere l'accendino e quindi aumentare la potenza del vostro fuoco.

A parte questo, non avete alcun aiuto, specialmente non avete tempo.

## ISTRUZIONI PER IL GIOCO E IL CARICAMENTO

All'inizio del gioco scegliete l'opzione Joystick o Keyboard. Poi scegliete le opzioni dei tasti per più armi e mettetevi in posizione. Scegliete 1 o 2 giocatori premendo il tasto appropriato.

Il giocatore ha una scelta di armi (pugni, fucile, corda). Fate la scelta usando il tasto appropriato. L'arma che scegliete è usata mentre il gioco è in progresso — non potrete cambiarla durante il gioco. Se catturate l'accendino aumenterete il potere del fuoco.

Alla fine di ogni livello, per poter avanzare al livello prossimo, dovete aver respinto tutti i banditi.

Controlli della tastiera: tasti definibili dell'utente

Controlli del joystick: sinistra, destra su, giù, fuoco

Definite i tasti per il fuoco dell'arma e mettetevi in posizione

Premere RESTORE per uscire

Scegliere 1 o 2 giocatori premendo il tasto appropriato.

**KONAMI**  
**ARCADE**  
**COLLECTION**

The image features a stylized, 3D-rendered logo for the Konami Arcade Collection. The word "KONAMI" is written in large, blue, metallic-looking block letters with a perspective effect, receding into the distance. A large, glowing white-outlined letter "K" is positioned behind the "O" and "N". From the top of this "K", a series of colorful light rays (blue, green, yellow, orange, red) radiate outwards against a dark, starry background. Below the "KONAMI" text, the words "ARCADE" and "COLLECTION" are stacked in a smaller, white, blocky font with a slight shadow, also receding into the distance. The overall aesthetic is retro and futuristic, reminiscent of classic arcade games.
