TIPS:

1. Each player has talent rating. More talented player has more chances to increase his playing skills in midseason.
2. Talented players must play in the main squad to improve playing skills. More games – more chances to increase skills.
3. Injuries decreases playing skills.
4. If you get out of money bank will loan you \$8,000,000. After 6 loans you are bankrupt and the game ends.
5. When season ends you will see final league table and all players that scored goals. And you will award \$10,000,000 for winning Premier League and \$6,000,000 for winning Premier League Cup. Then you can renew contracts with players, whose contracts ends. Players asks you about wage increase. If you decline offer players may ask for lower wage or may move to another club.
