FEDERATION

HOW TO PLAY FEDERATION

To load: type LOAD " " ENTER (in 48k mode).

The program understands simple English sentences such as:—
THROW THE LEAD BALL AT THE CRANE and PUT THE
BOMB DOWN CAREFULLY. The way in which you phrase
your command should not be important, for instance FIRMLY
PUSH DROID will have the same effect as PUSH DROID
HARD, firmly and hard being synonyms. If the computer
replies "Pardon?" or "Eh?", etc, to a command, you should
try rephrasing what you typed or using some different words.
If the reply is "That's not possible," some of what you typed
has been understood, but either the context is wrong or the
game has not been designed to respond to that particular
input.

special commands and abbreviations include . . . QUIT to end
the mission; RAMSAVE and RAMLOAD (RS and RL for short)
which transfer for your status instantly to and from memory;
all the compass directions; REDEscribe (R) or LOOK AROUND
to see where you are; GET, DROP, WEAR, REMOVE,
EXAMINE, INVENTORY (what you are carrying), EAT, PUSH,
PULL, INSERT, CLIMB and ATTACK; adjectives such as
QUICKLY, FIRMLY and CAREFULLY and, of course, many
many synonyms.

Note: you are given points out of 10,000 on your way to
completing your mission. It is possible to finish with less than
this score, as some points are reserved for showing extra
initiative!
