MAIN MENU

1. KEYBOARD
2. SINCLAIR
3. KEMPSTON
4. CURSOR
5. REDEFINE KEYS
6. MUSIC ON/OFF

Press the specified key (1 to 4) to select the control type.

Default keys for keyboard are Q, A, O, P and SPACE. Press 5 to redefine keys.

Press 6 to toggle music on/off. Turn off the music if you want to listen to a CD during the game. Sound effects will remain.

After the selection of the controls, press FIRE to begin the game. The main menu will no longer be available.

GAMEPLAY

The game has 3 modes: single race, championship and arcade. You can choose the game mode by the arrow pointer.

During the race, use FIRE to pause, and gearbox is automatic.

SINGLE RACE

Select one of three tracks: Slovakia, Norway or Mozambique. The race starts without qualifying, and the starting position will be last. Use this game mode as a practice before the championship.

CHAMPIONSHIP

Championship is the main game mode. Try to become the world champion after completing all 24 stages. Opponents differ in strength: the fastest of them will compete for the victory in the championship.

Scoring system:

1st place	10 pts
2nd	8
3rd	6
4th	5
5th	4
6th	3
7th	2
8th	1

You can participate in the qualification run before the race, or start from the last position, ignoring qualification.

After the 2nd, 4th, 7th, 10th, 14th and 18th stages, you will see the code. This will allow you to start the game from this point the next time you play: select "ENTER

CODE", type the code (spaces are automatic) and press ENTER.

ARCADE

This game mode is an in-game mini game for the score. You have three lives. Acceleration is automatic, and the bike has no brakes at all.

TIPS

(for single race and championship)

Use slipstream on the straights to get close to the rival.

At the start of the qualification, hold the THROTTLE to get the highest speed to the start line.

At the start of the race, wait for the starting lights to prevent the false start.
