Our Hero Henry McMannish-man has been transformed into an under-cover baby called Walter "pee-pee" Kay and sent back through time to deal with a terrible tantrumming tyrant before he becomes the big bully he is today. Armed with a supa splasha squirt gun adjusted to work with Professor Plumbob's patented 'mood meddling mash' granules. A few squirts from the mood mash should be enough to make them see the errors of their ways and grow up to be outstanding citizens. Failing that you can always lob a mouldy old potato at them!
