

EL VELO OSCURO

➔ **THE DARK VEIL** ➔

**Instruction
manual**

HISTORY

In an anonymous internet forum, you come across a story about an abandoned mansion in the nearby forest of your city. Intrigued by the possibility of adventure, you decide to attempt entering the mansion at night, with the intention of later sharing your escapade on the forum. As soon as you step inside, an eerie sensation washes over you, and your senses begin to falter until you ultimately lose consciousness. When you regain your senses, you find yourself restrained by an inexplicable force within the mansion's walls. No matter how hard you try, every escaping door and window seems impenetrable. Now, you must search for an escape from this haunted mansion.

Will you succeed?

GAME

In this interactive story, you must choose actions at every moment that will allow you (or not) to escape from the haunted house. To do this, you will see the options available to you at the bottom. There are five different endings, only one of them is the good one.

Find them all!

CONTROLS

- Q** - Move selection cursor upwards.
- A** - Move selection cursor downwards.
- SPACE** - Select an option.

LOAD

Compatible with any
Spectrum from 48k upwards.
Press **LOAD[™]**, then press
ENTER and **PLAY** on the
cassette.
